

VIRTUAL GOLDEN OTTER QUEST

Explore The Wild Center Virtually!

Search for the key words below, using the Virtual Visit feature at wildcenter.org/virtual-visit. Click to “walk” around. If you get lost, use the map on the next page and click the “View Floor Plan” button to see everything from above. Pay close attention to the highlighted letters as you fill in the blanks. These will spell out the special word at the bottom!

1. Look outside from the windows in the exhibit hall. The water on the surface of Greenleaf Pond is _____ on this snowy winter day.

2. What animal can you see hanging above the restroom hallway in the Great Hall?

3. What fish can you watch a video of at the Deep Lakes Tank?

4. What is the scientific name for the North American river otter? Make sure to check out the Exploration Table across from Otter Falls

11. What does the blue color represent on the planet floating in the Planet Adirondack Exhibit?

6. What shelled reptile is across the hall from the *Trout Stream Exhibit*?
Hint - Look in his water dish.

7. What type of bird of prey is flying over the *Marsh Oxbow Exhibit*?

8. What do you find swimming in most of the exhibits?

These maps help to show how organisms (such as producers and consumers) interact with each other in an ecosystem - .
