Exploring the Future: Community Survey

Context

Cornell Cooperative Extension of Erie County (CCE Erie) is exploring a new place to call its home base. The East Aurora facility was purchased in the 1950s where over 60 staff worked at the central location. With staff reductions over the decades, a more de-centralized model to serve our clients in urban areas, and new programs demanding more specialized facilities, CCE Erie is looking at options for a new facility in the central-county area. This facility can be tailored to new programs, the needs of farmers and growers, as well as consumers of nutritious, efficiently produced food. We need your input on priorities.

PLEASE COMPLETE THIS SURVEY and SEND IT BACK by OCTOBER 7TH, 2016
